

Why special education tutoring?

Special education tutoring is one of the most valuable services that you, as a parent, can secure for your child who lives with special needs. Children with special needs are often overwhelmed by the difficulties they face in everyday life. Moreover, these children are additionally tasked with the challenge of completing a range of standardized tests. Often, these tests are structured in direct opposition to the way in which they confront and process information. Whether dealing with autism spectrum disorders, dyspraxia, dyslexia, discalculi, language processing trouble, Down syndrome, foetal alcohol syndrome, ADHD or any other challenge, special needs tutoring can help pave the way to living life to the full.

What is Help My Child all about?

Help My Child was created specifically to help children with special needs reach their best self and help such children to be matched with the right tutor who can meet their needs.

You, as parents, already have an incredibly big load as is, so it is difficult to find the time to interview all the candidates out there that will be perfectly matched to your child's needs. **We do that for you.** All the candidates on our books have been thoroughly vetted. They go through a very strict interview process and we also do criminal, as well as credit checks on the candidates. We also take the time to contact any and all references personally so we can form a clear picture of who they are, and what their strengths as tutors/facilitators/caregivers are, so that we might match them better with your child's needs.

We are really passionate about what we do and we will always strive to help you in any way that we can. It takes a village to raise a child in any circumstance. We want to help you make sure the village around your child is the best village it can possibly be.

What other services does Help My Child offer?

If you would choose to, we can also evaluate your child to see where they need extra help. This will entail a 2-3 hours session where we will observe him/her in all aspects: physical, emotional, social as well as academic. We will compile an Independent Education Program (IEP) for your child that you can either implement yourself, or give to the person that is working with your child. The aim of the IEP is to give extra support in the area(s) that is needed and to boost them so that they become more on par with their peers and become the best that they can be.

If you feel that your child needs a speech therapist, occupational therapist, etc; we can also supply you with recommended therapists in your area. If we do not have any on our books for your specific area, we will do the research on your behalf. (THIS IS A FREE SERVICE)

What else do I need to know?

Should you be unhappy with the tutor/facilitator/caregiver that we have placed with you within the first three (3) months, we will replace the candidate. This option is only available once, and only within the first three (3) months.

We, at Help My Child, do not prescribe to you, the parents, what you should pay your tutors/facilitators/caregivers. This is something that is between the candidate and yourself. We also do not request monthly percentage fees from the candidates, so the money that you pay them goes to them alone.

We also not have any say in any the arrangements that you make with the tutor/facilitator/caregiver. It will be up to you to supply and sign a contract with them personally, although we can help you with this at an additional charge.

If you have any further queries, we would be happy to answer them for you. Please do not hesitate to contact us. We are ALWAYS available and we really want to help YOU.

We look forward to helping you.
